Overview

This guide explains the implementation of Fund Level Partial Settlement functionality for loans and revolver trades. This allows users to settle and unsettle funds within a block trade using a new unified settlement screen.

With the new interface, users can:

- View settlement details at the fund level.
- Settle selected funds using the provided Actual Settlement Date with Cost of Carry (CoC) and Delayed Compensation (DComp) adjustments.
- Unsettle previously settled funds with automatic reversal of general ledger entries.
- Manage all actions (View/Settle/Unsettle) from a single consolidated trade settlement screen.

This enhancement standardizes CoC calculation at the fund level for both loans and revolvers. DComp remains calculated at the contract (per-fund) level. Prior to this change, CoC was calculated at the block level for loans and at the contract level for revolvers.

Settle Trade

To settle fund level allocations:

1. From the **Trade** screen, select the **Trade Settlement** button to open the **Trade Settlement** screen.

The screenshot displays the 'Trade Settlement' screen. At the top right, a button labeled 'Trade Settlement' is highlighted with a red circle and arrow (1). The main area is divided into several sections: 'Trade Ticket', 'Settlement Details', 'Trade Terms', 'FX Rate Details', and 'Commission Details'. Below these is a table of 'Fund Group Percentage' allocations. The table has columns for Allocation Id, Fund, Quantity, Broker Account, Strategy, Settlement Status, Proj/Act Set Date, Commission, SEC Fee, Exchange Fee, Clearing Broker Fee, and N/A Fee. The 'Settlement Status' column shows 'Unsettled' for the first two rows and 'Settled' for the third. The 'Proj/Act Set Date' column shows '02/18/2026' for the first two rows and '02/18/2026' for the third. Red circles and arrows (2) and (3) point to the 'Settlement Status' and 'Proj/Act Set Date' columns respectively.

Allocation Id	Fund	Quantity	Broker Account	Strategy	Settlement Status	Proj/Act Set Date	Commission	SEC Fee	Exchange Fee	Clearing Broker Fee	N/A Fee
11859850 PS_SGL_1	60,000,000,000	CTB	HY-BLS3	Unsettled	02/18/2026	600.00	0.00	0.00	0.00	0.00	
11859851 PS_SGL_2	30,000,000,000	BarclaydB	HY-BLS3	Unsettled	02/18/2026	300.00	0.00	0.00	0.00	0.00	
11859852 PS_SGL_2	10,000,000,000	BarclaydB	HY-BLS3	Settled	02/18/2026	100.00	0.00	0.00	0.00	0.00	

- (1) Trade Settlement button has been added to the Trade screen for **loans** and **revolvers**, consolidating Settle Trade, View Settlement, and Unsettle Trade into single control.
- (2) Settlement Status: Displays whether each allocation is **Settled** or **Unsettled**.
- (3) Proj/Actual Set Date: Displays the **Projected Set Date** from the trade header for unsettled allocations, or **Actual Set Date** for settled allocations.

Note: Proj/Act Set Date on the allocation grid will change based on each allocation's settlement status. Projected Set Date on the header will always retain the user entered projected settlement date.

- The screen opens in **View** mode with the Trade ID populated by default. Fields on the results grid are read-only. From the results grid toolbar, users can initiate **Settle** or **Unsettle** actions.

BL_TSP C1	127.11	0.00	0.00																		
BL_TSP C2	228.00	0.00	0.00																		

Note:

- Accrued CoC and DComp display value as of current date for unsettled trades.
 - The PIK Adjustment field has been removed as part of UI simplification efforts, but users can continue to book PIK adjustments from the Accrual Manager module using interest type **PAM**.
- From **View** Mode, click **Settle** button on the results grid toolbar. The screen switches to **Settle** mode, and only **eligible unsettled** fund allocations are displayed.

- Select one or more funds to settle using the corresponding checkboxes.
- Review or update the following fields, as required:
 - Actual Settlement Date**
 - Defaults to the **current date** and can be updated between system lock and current date.
 - The system automatically recalculates accrued CoC and DComp based on the updated Actual Settlement Date field. User adjusted values will be cleared as it triggers force refresh.
 - Cost of Carry Pay/Rec** (fund level)
 - DComp Pay/Rec** (contract level)
- Select **Save** to complete settlement.

Note: If additional eligible fund allocations remain after settlement, the screen remains in **Settle** mode.

Note: The block trade is marked as settled when all the fund allocations associated with it are settled.

Unsettle Trade

To unsettle fund level allocations:

1. From the **Trade** Screen, select the **Trade Settlement** button to open the **Trade Settlement** screen.
2. From **View** mode, click **Unsettle** in the results grid toolbar. The screen switches to **Unsettle** mode and displays only **eligible settled** fund allocations.

Trade Id	Fund	Symbol	Trade Date	Actual Settlement Date	Status	Settlement Quantity	Accrued Cost of Carry	Cost of Carry Pay/Rec	Adjusted Cost of Carry
10014281	PS_Sc2_1	BL_TSP	02/02/2026	04/13/2026	Settled	60,000.00	-284.65	0.00	0.00

Contract Accrued DComp DComp Pay/Rec Adjusted DComp

BL_TSP C1	179.82	0.00	0.00
BL_TSP C2	324.00	0.00	0.00

3. Select one or more fund allocations to unsettle using the provided checkboxes.

4. Select **Save** to complete the unsettlement.
 - If additional eligible allocations remain, the screen stays in **Unsettle** mode.
 - To return to **View** mode, select **Cancel** from the results grid toolbar.
5. After unsettlement is complete, the system automatically **reverses the associated general ledger entries**.

Search Screen Enhancements

Note: A new **Settlement Status** column is added to the Trade Search and Event Search screens and is available from the column chooser. This column populates only for loan and revolver trades.

Trade Screen

On Trade Search, the status will show **Settled** for fully settled block trades and **Unsettled/Partially Settled** for unsettled and partially settled block trades.

Trade Search with criteria:

- **Settle from and to:** Displays only trades where the block's projected or actual settlement date is not N/A.
- **Settled bank debt:** Displays only fully settled block trades.

Out of Scope

- This enhancement is not optimized for bulk processing in v26.1.
- Manual adjustments made through the MJE and Accrual Manager screens are not included in CoC or DComp.
- This enhancement does not support scenarios where the closer's settlement date precedes the opener's settlement date.
- When performing a re-org into a different symbol, settlement search results will return accruals for the original event. In this scenario, users must submit the accrual for the original symbol to the Settle service.
